

### **Bird Watching**

At parks and in the woods, many people like to watch birds. They have to be very still and quiet so that they do not scare the birds. Since birds can be hard to find, people feel good when they see new ones. Sometimes they join friends to watch the birds. When they see a new bird, they try to find out what kind it is. They can look in a book to find the bird's picture and its name. Learning about new birds is fun.
